	1:15 pm	End of shooting
	2 :00 pm	Schützen targets
	3 :15 pm	Prize giving

REGULATIONS

Gun inspection is performed on the range before the first detail of each event..

MILITARY RIFLE ET SPORTING RIFLE TROPHIES

The « Trophée Military Rifle » is the aggregate of 1-BURTON and 2-SNIDER

The « Trophée Sporting Rifle » is the aggregate of 3-TURNER and 4-BODINE

Only one winner for each « Trophée » : the shooter who has achieved the highest score by addition of the two elementary scores constituting the “Trophée”, hence a possible score of 600 points.

Each winner gets an individual award, and his name is engraved on the corresponding « Trophée ».

These « Trophées » remain exposed at the head office of A.C.S.

Mixing one military rifle and one sporting rifle doesn't give access to the « Trophées », but only to the awards in each elementary event.

GUN SPECIFICATIONS FOR THE EVENTS 1-BURTON AND 2-SNIDER

They are military or sporting, provided they have been designed for military purposes, or coming from a military rifle, altered for sporting use, on condition that the alteration concerns only the stock. The ammunition must be the one in use at that time. For the Burton event, the calibre must be greater than 13.5 mm.

The guns are fitted with fixed rear sight, or only adjustable in elevation, and fixed open front sight. The Trapdoor Springfield with Buffington rear sight are classified in the BODINE event.

Loading tubes forbidden; for the Snider event, the cartridge is a single unit (no breech-seating); no cleaning between shots. Derogation for the guns with combustible cartridges: it is allowed to brush the chamber and to push out the residues with the rifle ramrod.

GUN SPECIFICATIONS FOR THE EVENTS 3-TURNER AND 4-BODINE

The guns accepted are: military rifles with laterally adjustable rear sights (f.ex. Springfield Trapdoor with Buffington rear sight) and free rifles. They can have a hooded front sight with removable insert, with windage adjustment or not, spirit level, diopter, provided they are contemporary of the rifle (new made or not).

Optical sights are forbidden. Allowed are: loading tubes, cartridges in several elements (breech-seating), cleaning between shots.

COMMON RULES FOR ALL EVENTS

A control committee will be set up with shooters from different nationalities; this committee is commissioned to inspect every gun and settle the contesting of posted scores. In case a rifle shows unusual characteristics, the owner will have to present any document proving that such a rifle has really existed.

The decisions of the committee are final, nevertheless the owner of a refused rifle can shoot in the event where he is registered, but without getting an award. This action applies only once.

Details are 30 minutes long with 13 shots. Only the quantity of ammunition needed for the detail shall be taken out and presented.

A fourteenth impact in your target will cost you 14 points; be vigilant until the end of detail. In case of contesting, please report immediately to the Range Officer; any non reported contesting will not be taken into account.

Marketed black powder only.

Cartridges: must be loaded with black powder only, lead bullet, naked or paper patched, to the exclusion of any metallic jacket or gas-check.

An unexpected inspection can take place on the range; a cartridge will be taken at random, dismantled and checked together with the shooter.

Sling: must be attached to the swivels for a military rifle; for free rifles, it can be fixed in one point only, but without being hooked to the shooting jacket.

During the shooting will be authorized on the shooting range, the shooter, the coach and the range officer

Coaching is allowed at any distance, in a discreet and mostly quiet manner.

The safety rules are those now in effects on the shooting ranges.

Tie break: the winner is the shooter with the highest score at 300 meters. If still equal, the score at 200 m, then 100 m, finally the total number of 10, 9, 8...on the 3 distances will be used.

Lending a rifle is tolerated, only for beginners in this kind of event.

On site under shelter: beverages, sandwiches, hot meals

« Rustic » camping on the range is possible
